What is Reveille SENTRY?

SENTRY is a partner and software program powered by Reveille Software - the leading monitoring and management solution for ECM, IDP, and RPA applications. The program is designed to accelerate sales, reduce friction, and deliver more value through partnerships with leading MSPs, SIs, and ISVs in Content Services and Intelligent Process Automation.

Why Reveille SENTRY?

- **Catch issues at the platform and user level** well before your client is impacted
- **Increase retention rates** while unlocking new logo growth and service expansion
- **Differentiate in competitive deals** with SLA-backed service on leading ECM, IDP, and RPA
- **Leverage a single pane of glass** to efficiently manage multiple platforms, customers, and tenants
- **Enhanced onboarding experience** and accelerate time-to-value

The SENTRY Bundle

- » **Reveille Platform volume license**
- » **Reveille User Analytics**
- » **Private labeling**
- » **Reveille Jumpstart services**
- » **Additional applications support**
- » **Enhanced services for onboarding new clients**
- » **Coverage for non-production instances**
